

# Baby File    Whitepaper

## What is a Baby File ?

BabyFile is the first Filecoin reflection token.  
Just hold the BabyFile token, and you will be rewarded with Filecoin  
for every transaction.  
Using the auto-claim feature, rewards will automatically be sent to  
your wallet.

## BabyFile features

**Redistribute 7% in Filecoin**  
7% of all trades will be redistributed to all holders. Hold BabyFil  
tokens and earn Filecoin. At least 20,000 tokens are required to  
receive your rewards.

### Auto Paid Rewards

You don't need to request Filecoin rewards. It will be sent to your  
wallet automatically. All you have to do is add the Filecoin address  
to your wallet, and the setup is ready.

## Marketing plan

5% of all transactions will be allocated to Filecoin and IPFS marketing. (Swapped to File in real-time to avoid dumping). This redistribution will strengthen our support for the most passionate projects to solidify our community further. We believe in the Web 3.0 world and will contribute to Filecoin's promotion. We love you,  
Juan Benet!

Furthermore, through the Axie Scholarship Program, we are working to help as many people as possible who are suffering from poverty, mainly in the Philippines and other Southeast Asia.

### 1% sell commission

An additional 1% commission will apply to all sells. This commission helps to reduce swing trades and prevent the whale's control.

### Safety design

The initial liquidity provided is locked in DXLock for over a year. In addition, Certik and TechRate have fully audited.

### 3% automated liquidity pool

3% of every transaction will convert into the liquidity of Pancakeswap. It is automatic and helps to create a price floor (stability).

### Disseminate information to the community

Community is always our top priority. Follow us on Twitter and other social platforms to get the latest updates.

# What is the Scholarship System?

The Scholarship system was created not by the Axie Infinity management company but by the game's user community. It is a system where the manager lends three Axies to Scholar to play the game, and the manager receives a percentage of the profits made by the Scholar.

It may be easier to think of it as an Axie Infinity version of the peasant system, where the landlord rents out farmland and collects a certain percentage of the harvest as a peasant fee.

This business model has a long history and can trace back to when the idea of owning land arose. We can think of it as the same as the origin of agriculture. There are many theories about the origin of farming, but excavations have shown that it was practiced in the Yangtze River basin of China at least 10,000 years ago.

※ Farming Had an Earlier Start, a Study Says / NewYorkTimes  
It is not easy to do the same thing in a conventional game because it may cause the account (≡ asset) to take away. However, in blockchain games, the manager can lend only login privileges to the game account without giving the wallet's private key to Scholar.
